Join us and change the world

What you can expect from the Centre for Doctoral Training:

- Creative training to help you achieve your academic potential
 - Collaboration with industry partners on people-first research projects to solve real-world problems
 - Support from world-leading academics in fields of Computational Science and Mathematical excellence
 - Gain an MSc in your first year of study, going on to achieve a PhD by fourth year of study
 - Fully funded places available (fees plus maintenance stipend set at the UKRI rate, currently £15,609 per annum for 2021/22 for full-time students, updated each year)
- 

You'll be based in the Computational Foundry, a £32.5 million state-of-the-art research centre, with the beautiful beaches of Gower a stone's throw away

Find out more:

www.swansea.ac.uk/study/why-study-in-swansea/

You'll be working with a range of industry partners on research projects

We welcome applications from anyone who can help in the mission of the Centre

- You should have an aptitude in computational thinking including the ability to write software (or enthusiasm to learn)
 - This may be evidenced by a degree in Computer Science, Physics, Engineering or Mathematics
 - Arts and Humanities, Social Sciences, Law, and Management graduates are also encouraged to apply
- 

Our cohort of students are already changing the world through people-centered research – join them...

Visit our website to find out application details, videos from our students, staff and academic partners on what life is like at the Centre for Doctoral Training:

www.swansea.ac.uk/science/epsrc-centre-for-doctoral-training/

Deadline for applications is 25th March 2022
